

To our dearest friends and family.

What a wild ride this has been! 18 years, we have gathered together. We have shared so many good times. From our humble beginnings, when Ben took a few friends on a “special” ride through the redwoods as an appreciation for their hard work in scrapbooking, to our large celebrations of our extended community, to our present day, where we gather as a more intimate family of friends. Together we have brought so much joy, laughter, and spiritual healing- not only to our community, but out into the larger world. It has always been our intention to use our collective joy as a source of healing to the larger world. I would say we have accomplished that, and then some! It is easy to look at the current state of the world, and say “Yes! We did this!”. A bow of gratitude to all of you lovely souls who have ridden on the train at some point over these decades. You have made this party what it is.

Alas, Ben and Jeanette are now 50. So old! We have spent so much energy birthing and raising this special train baby into a special train adult. Now it is time for us to move on to more age-appropriate activities. Ben is working his way through Ken Burns’ WWII documentaries. Jeanette is busy sewing clothes for the grandchildren she hopes will one day arrive. We have a lot to do! We have decided it is time to pass the torch on to the next generation, our second favorite children- Jevon and Mason. This year they are working closely with us to carry on what we have so lovingly created. If you don’t know them, Jevon is Jeanette’s eldest son. Mason is Rich and Laura’s son. They have deep ties to our community, and we know that they will rise to the occasion of making these gatherings full of the love and joy we have all experienced. Please welcome them to their new roles! Below is their message to you.

Namaste,
Ben and Jeanette

Dear Event Goers,

Hi, we are Jevon and Mason, the Founders of MORGOTH®, the world's first AI-powered event production company. We have produced several festivals you may have heard of; Fyre Festival, EDC Las Vegas, Hard Summer, Utah Pride, Folsom Street fair, Association of Waldorf Schools of North America Annual Conference (this year without silks), and the Santa Rosa Handcart Regatta. You can look forward to constant new acquisitions and we are happy to announce we have entered into negotiations for Burning Man.

The Skunk Train is now under new, sexier, and dynamic management, bringing a vibrant and smarter approach to our operations. We are Morgoth®, and we're so grateful that Jeanette and Ben decided to trust us with Skunk Train Inc. in exchange for two tickets to Big Island, Hawaii's most healing ayahuasca retreat. For them, this is a huge milestone for the company, and a big step towards retirement; we are honored that they would trust us with this awesome responsibility.

The changes we are planning on making won't affect the event goers' experience. We plan on making some subtle changes in our financial planning, event operations, staffing, and policies. With our new fully integrated ChatGPTxGrok AI ticket system, our ticket processing will be streamlined and efficient, inviting people who are attractive and have shown the ability to buy a full-priced ticket. We are dedicated to diversity and inclusion, especially when it comes to partying; that's why we are launching the Pretty Face Discounted Ticket Program (PFDT). Equity means ensuring everyone has fair access to fun, resources, and opportunities. Inclusion is our daily commitment to fostering a safe environment where every voice is heard and respected.

We are excited to announce that we are also installing Flock cameras on all five train cars; that's right, five train cars! With bottle service and Joe Rogan! This isn't for safety, no, this is so you can experience CANDIDA®, an automated photography subscription that you enrolled in by opening this message. CANDIDA® uses Flock's facial recognition

system to snap candid photos of your most postable and memorable moments on the train. Special thanks to our friends at Flock and DHS.

We are also launching Train Coin®, the first-ever train cryptocurrency. By buying into Train Coin, you're not just buying a fake currency used to fund someone else's supremacist agenda; you're buying into the skunk tribe, our family. Skunk Coin will be the only way to buy your essential needs on the train and at all our events: drinks, food, and that one dog someone left too long out front in 2024.

Again, we are so grateful to Ben and Jeanette for stepping into the future with trust in their hearts, knowing we will run this into the ground. Thanks to the amazing friends in our corner, all eagerly waiting to snag their tickets. Plus, our DJ buddies who have been so patient with this acquisition, and our backer, Kendal Musk, so let the fun begin!

And with that, we would like to announce this year's theme!

Sexy, yes, it is a costume.

Here is what you need to know:

- **Prices are going up.** The old rates were unsustainable. New prices take effect on your next ticket.
- **No more exceptions.** If you had special deals or handshake agreements with the old owner, they are dead.
- **Support is changing.** We are cutting our phone line and email. If you have an issue, submit a ticket online with our AI agent, and wait your turn.
- **Arrive on time.** Our late fee is now 20%. No excuses.
- **No more one-time purchases.** We are transitioning to an all-digital autopay system to create a more seamless subscription-based billing cycle.

We know change is hard for the olds, but this is how businesses outside the cannabis industry operate. You want high-quality service, and you will pay for it.

Get ready for the new era,

Jevon and Mason

MORGOTH®
